 - Rhino 3D
- **Upgrades and Implementation**
 - MicroStation
 - ProjectWise
 - OpenRoads
- **Customization and Configuration**
 - MicroStation Workspaces
 - ProjectWise
- **3D Physical Models**
 - Start from 3D computer model
 - Produce 3D printed physical scaled models
- **Software Development**
 - C++. .Net, Visual Basic and other languages.
- **BIM Modeling**
 - Starting from: Blueprints, 2D CAD files, PointClouds or other definitions
 - Producing 3D Architectural Model, 3D Structural Model and Renderings

Notable Projects

Ongoing Projects

- Los Angeles Department of Public Works – Upgrading to MicroStation CONNECT, OpenRoads, and ProjectWise CONNECT. Ongoing consulting.
- East Bay Municipal Utilities District – Consulting with engineering and IT on customization and upgrading of MicroStation for several departments.
- UC Berkeley-Facilities – Responsible for installation and training of ProjectWise for several departments.
- Los Angeles Department of Water and Power – Ongoing training in MicroStation.
- Los Angeles Community College District – Helped develop software plans for 50 building projects for the \$5.7B “Measure J” projects. Served as IT and ProjectWise consultant/trainer and managing contract producing As-Built BIM models of new buildings.

Past Projects

- Anil Verma – Upgrading to ProjectWise CONNECT
- Gray Construction – Produced BIM models for a pedestrian bridge and various buildings for an auto manufacturer in TN.
- JL Patterson (Now Jacobs) – Responsible for implementing ProjectWise including Integration and Web Server.
- Anil Verma – Responsible for implementing ProjectWise V8i for use on a project for several light rail terminals in HI.
